

The Dean Center for Tick Borne Illness

Bi-Weekly Patient Support Group

This group is drop-in style (no sign-ups required) and is open to anyone suffering from the effects of Lyme disease at any stage. Guided by a mental health counselor, this interactive group will serve as a place where patients can share experiences and offer support to one another. Although each meeting will feature a topic of interest, patients are welcome to share and discuss any issues relevant to coping with tick borne illness.

Where

Spaulding Hospital Cambridge (Large Chapel Room)
1575 Cambridge Street, Cambridge, MA 02138

When

7:00pm-8:30pm, every other Tuesday, starting September 22nd
