

# Spaulding Rehabilitation Hospital Boston

Jan 1, 2023-Dec 31, 2023

## Program Outcomes: Brain Injury Specialty

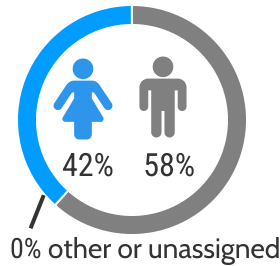

Helping our patients attain their greatest potential for independence

### Persons Served

Spaulding Rehabilitation Hospital Boston (SRH) collects and reports information on the results achieved by our patients. This allows our staff to compare the functional improvement of SRH Brain Injury Program patients to similar patients across the nation.

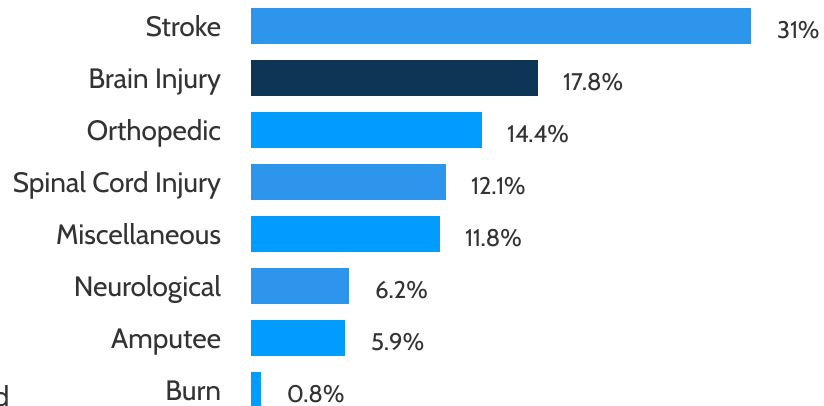

### 419 patients in 2023

2023	SRH	Nation
Avg. Age	59	65
Avg. Length of Stay	15 days	13 days

### Patients Served by Diagnosis

SRH provides expert care for multiple Rehabilitation Impairment Categories.

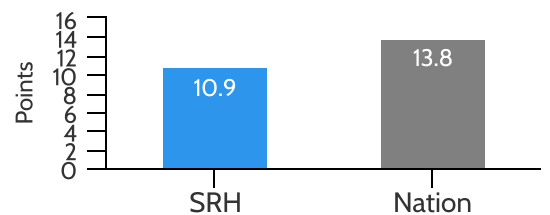

### Brain Injury Program: Functional Improvement Quality Measures <sup>1</sup>

Multiple metrics are used to determine patient improvement throughout their inpatient stay. Patients are scored on their admission and again at discharge in the categories of Self-Care and Mobility, which includes multiple skills and abilities as shown in the graphic below. The improvements are measured by the change in score for both and can be compared with similar rehabilitation facilities. **Higher scores are better.**

#### Self-Care

- Eating
- Oral hygiene
- Toilet hygiene
- Shower/bathe self
- Upper body dress
- Lower body dress
- Applying footwear

#### Change in Self-Care Score

#### Mobility

- Rolling, lying down and sitting up in bed
- Sit to stand
- Transferring to and from bed and chair
- Transferring to and from toilet
- Transferring in and out of car
- Ambulation (walking)
- Climbing stairs
- Retrieval of item from ground
- Wheelchair mobility

#### Change in Mobility Score

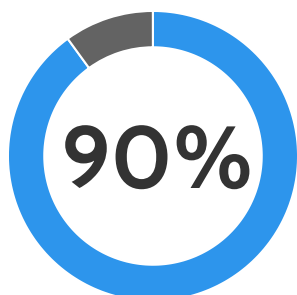

Therapy services are provided at a minimum of 15 hours per week (900 minutes over a rolling 7-day week from admission). All patients receive 24-hour physician & rehab nursing care.

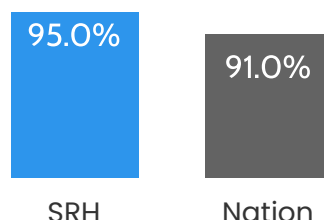

### Patient Experience <sup>2,3</sup>

At Spaulding Rehabilitation Hospital Boston (SRH), satisfaction with your experience is a high priority. SRH seeks patient feedback to continually improve the patient experience. Patients are surveyed just after discharge and again at 90 days to find out how they are functioning after leaving SRH. **Higher scores are better.**

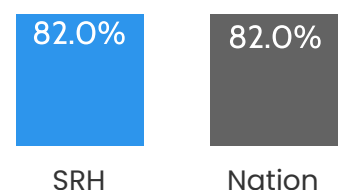

90% of all inpatients would **highly recommend** SRH to friends and family.

Brain Injury Program: Overall satisfaction at 90 days

Brain Injury Program: The rehabilitation program improved my quality of life
